# RAILWAY SAFETY

Scan Safety offers a selection of personal protective equipment (PPE) designed to protect workers during railway industry work and maintenance. Our range offers head to toe protection, including hearing and eye protection, helmets, gloves, and a range of high-visibility garments compliant with the railway standard RIS-3279-TOM. We're committed to keeping you safe during railway maintenance, construction, and repair work, where hazards are part of daily operations.

Our full range of safety products can be found on our website [www.scan-safety.com](http://www.scan-safety.com)

## RIS-3279-TOM UK RAILWAY STANDARD

RIS-3279-TOM (formerly GO-RT 3279) is a high visibility standard that only applies to the rail industry in the UK, as opposed to the EU-wide nature of other EN standards. The aim is to ensure that rail workers on or near the trackside are sufficiently visible to trains approaching at speed or any other traffic. See garments marked with an icon for conformity.

# HI-VIS POLO SHIRT

## ORANGE

Scan Hi-Vis orange Polo Shirts conform to EN ISO 20471 Class 2. The Polo Shirt has horizontal and parallel panels that reflect light to maximise visibility, particularly during the hours of darkness. Hardwearing and comfortable to wear. The open collar and short sleeves make this shirt ideal for use in warm conditions or warehouse environments where visibility is required and protection from adverse weather conditions is not necessary.

## EAR PROTECTION

SNR 30dB

# EAR DEFENDERS

## HELMET MOUNTED

The Scan Helmet Mounted Ear Defenders clip into most standard helmet slots. With a noise cancelling ratio of 30db, they are effective in reducing noise levels, whilst still allowing the wearer to hear normal conversation. The soft and wide PVC ear cushions enhance comfort, and the swivelling cup design allows for easy manoeuvring. The fluorescent yellow colour enhances visibility.

This ear defender has a Single Number Rating (SNR) of 30, meaning it will reduce noise by 30 decibels (db).

- HI-VIS YELLOW FOR ENHANCED VISIBILITY
- SWIVELLING CUP DESIGN FOR EASY MANOEUVRING
- CLIPS IN TO MOST STANDARD HELMET SLOTS

## HI-VIS SHELL

SNR 33dB

Scan Class 5 Ear Defenders offer a high noise cancelling ratio of SNR 33dB. They are effective in reducing noise levels, whilst still allowing the wearer to hear normal conversation. The soft and wide PVC ear cushions enhance comfort, and the adjustable headband and cup height will fit the majority of wearers. They are foldable for easy storage. The fluorescent yellow colour enhances visibility.

This ear defender has a Single Number Rating (SNR) of 33, meaning it will reduce noise by 33 decibels (db).
